Firefighter SS100PMFF

Description:

- Compact unit fits perfectly in many Utility Vehicles
- 100 gallon polyethylene rustproof tank
- 1.5" high performance fire fighting pump with Honda engine
- 100 feet of 3/4" hose to maintain safe distance from small fires
- Comes with a 20 foot bottom fill, quick connect hose kit to refill tank easily in remote areas from any local water source using included foot strainer.
- Self priming pump is covered by a strong five year warranty

This amazingly compact unit provides you with all the fire fighting capacity you can fit into

most utility vehicles sold today. Great for reaching those out of the way places with the protection you require to help prevent fires from spreading. Ideal for mop-up after a fire to prevent dangerous flare ups that happen so quickly.
